

Genie 26/46

Specifications

- **Working height:** 26 ft (8.1m)
- **Platform height:** 20 ft (6.10 m)
- **Safe working load:** 1,200 lbs (544 kg)
- **Unladen weight:** 3,977 lbs (1,804kg)
- **Turning radius:** (outside) 7 ft 6 in (2.29 m)
- **Transit height:** (with rails folded) 5 ft 1 in (1.55 m)
- **Transit width:** 3 ft 10ins (1.17m)
- **Transit length:** (stowed) 7 ft 11 in (2.41 m)
- **Platform:** L: 2.26 m W: 1.15 m

Features & Options

The Genie 26/46 is ideal for your heavy lifting requirements and performs them with ease and efficiency. Its solid steel deck platform has a slip-resistant surface with heavy duty guardrails that fold down for quick accessibility.

There are lanyard attachment points built in and the joystick control operates from either the ground or platform.

A 1m rollout platform extension

An AC wiring supply to the platform

To provide smooth deceleration the Genie 2646 has multiple disc brakes

For safety there is a tilt sensor with an audible alarm and pothole guards

It also has a manual brake release and non-marking tyres

In operation in quiet work environments there is a low noise level. The high angle steering provides excellent maneuverability.

The battery and motor life is extended by using only the energy needed to do the required work.
