

Genie GS 3268 RT

Specifications

- **Working Height:** 11.75 Metres (38.5Ft)
- **Safe Working Load:** 454kg
- **Platform Length:** 2.51 Metres (8ft 3)
- **Platform Length:** Extended: 3.96 (13ft)
- **Unladen Weight:** 3632kg (8,008 Lbs)
- **Transit Height:** 2.45 Metres
- **Transit Height Rails Lowered:** 1.83 Metres
- **Platform Width:** 1.73 Metres
- **Auto Levelling:** Hydraulic Outriggers

Features & Options

The Genie GS 3268 is a diesel powered self propelled scissor lift with Self levelling automatic hydraulic outriggers.

It has proportional joystick control and drivable at full height. The 4x4 System and rough terrain tyres make this machine ideal for construction applications where close building work access is needed.
